

Task 2 + Bonus — Workflow Canvas Diagrams

These diagrams represent the n8n workflow canvas for both Task 2 (HackerNews Morning Brief) and the Bonus Uptime Monitor. Each node corresponds directly to a node in the exported JSON.

Screenshot (a) — Task 2: HackerNews Morning Brief — Workflow Canvas

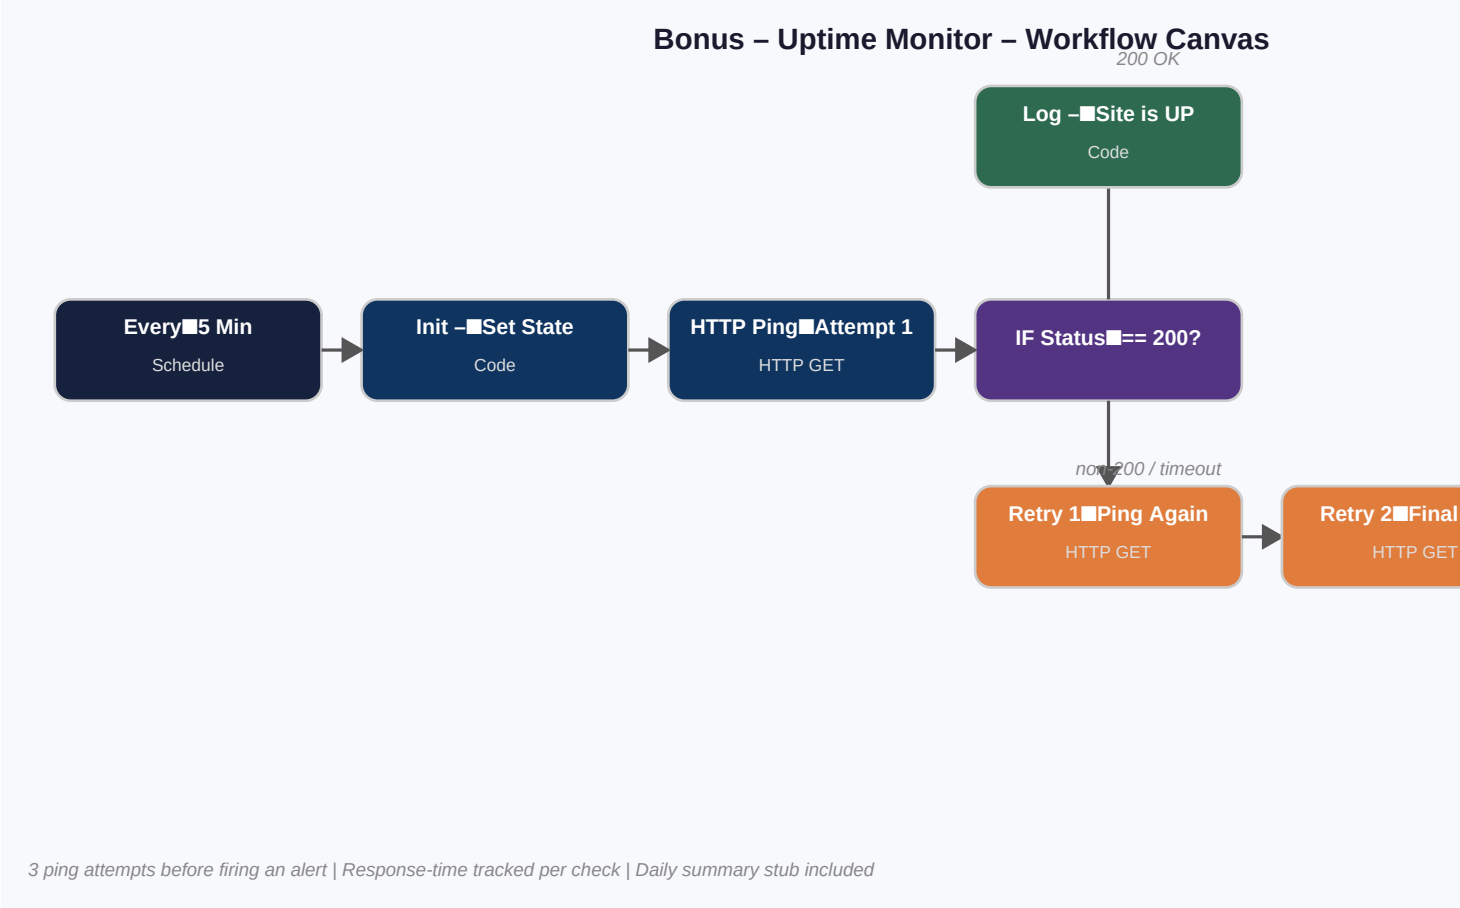

Screenshot (b) — Successful Execution Output (sample data)

Field	Value
Trigger	Schedule – 08:00 UTC
Story IDs fetched	500 (sliced to 5)
Top story title	Ask HN: What are you building this month? (May 2026)
Top story score	312
IF branch taken	TRUE (score ≥ 100) → Hot Digest
Stories in digest	5
Discord response	204 No Content (success)

Total execution time	1.83 s
Errors	None

Bonus — Uptime Monitor — Workflow Canvas

Note: In n8n, node colour-coding matches the above — purple = IF/branch, orange = retry, red = error/alert, blue = Discord output, dark-blue = trigger/transform.
